NOTES TO THE FINANCIAL REPORT

A1. BASIS OF PREPARATION

The interim financial statements have been prepared under the historical cost basis, except for investment securities and derivative financial instruments which are stated at fair value.

The interim financial statements are unaudited and have been prepared in accordance with the MFRS 134: Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad. This interim financial report also comply with IAS 34 Interim Financial Reporting issued by the International Accounting Standards Board. This interim financial report should be read in conjunction with the audited financial statements of the Group for the year ended 31 December 2018.

The significant accounting policies and methods of computation applied in this report are consistent with those adopted in the financial statements for the year ended 31 December 2018 except in the current financial year, the Group has adopted all applicable new and amended MFRSs and Annual Improvements to MFRSs that are effective for annual period beginning on 1 January 2019. Except for MFRS 16 Leases, the adoption of other standards did not have a material effect on the financial performance or position of the Group.

MFRS 16 Leases

MFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under MFRS 117. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessor accounting under MFRS 16 is substantially unchanged from accounting under MFRS 117. Lessors will continue to classify all leases using the same classification principle as in MFRS 117 and distinguish between two types of leases: operating and finance leases.

The Group adopted MFRS 16 using the modified retrospective method with the cumulative effect of initially applying this Standard as an adjustment to the opening balance of accumulated losses at the date of initial application. In accordance with the transition requirements under the Appendix C, paragraph 5(b) of MFRS 16, comparatives are not restated.

The Group elected to use the exemptions applicable to the standard on lease contracts for which the lease terms end within 12 months as of the date of initial application, and lease contracts for which the underlying asset is of low value. The Group will apply the practical expedient available in MFRS 16, Appendix C, paragraph 10(b) that allows any entity to rely on its assessment of whether leases are onerous as an alternative to performing an impairment review. The lessee shall adjust the right-of-use assets by the amount of any provision for onerous contracts recognised immediately before the date of initial application.

A1. BASIS OF PREPARATION (CONT'D)***MFRS 16 Leases (cont'd)***

The following table shows the impact of changes to the consolidated statements of financial position of the Group resulting from the adoption of MFRS 16 Leases as at 1 January 2019:

(a) The right-of-use assets comprise 5 vessels leased from owners and are measured at the amount equal to the lease liabilities, and adjusted by the amount of provision for onerous contracts immediately before the date of initial application.

(b) Implicit interest on accrued lease payments is adjusted to accumulated losses as at 1 January 2019.

(c) The lease liabilities arising from 5 leased vessels are recognised and discounted using the Group's incremental borrowing rate of 4.48%, and adjusted by any accrued lease payments immediately before the date of initial application.

(d) The Group applied the practical expedient available in MFRS 16, Appendix C, paragraph 10(b) that allows any entity to rely on its assessment of whether leases are onerous as an alternative to performing an impairment review. The lessee shall adjust the right-of-use assets by the amount of any provision for onerous contracts recognised immediately before the date of initial application.

(e) Accrued lease payments previously classified as payables and other liabilities are now recognised as part of lease liabilities.

The operating lease commitments disclosed under MFRS 117 as at 31 December 2018 are reconciled as follows to the lease liabilities recognised in the consolidated statement of financial position as at 1 January 2019, is as follows:

	RM '000

B1. REVIEW OF PERFORMANCE

MBC Group reported a lower loss of RM10.591 million in Q1 FY2019, an improvement of RM3.448 million compared with a loss RM14.039 million in Q1 FY2018. This is mainly due to the non-recurrence of loss from associate of RM6.073 million recorded in Q1 FY2018 which was disposed in October 2018.

The performance of the key segments in Q1 FY2019 as compared to Q1 FY2018 are as follows:-

(1) Dry bulk segment

The table below summarizes the average time charter equivalent (TCE) and hire days for MBC fleet (including jointly owned).

	Average TCE/day		Hire days	
	Jan-Mar 2019	Jan-Mar 2018	Jan-Mar 2019	Jan-Mar 2018
	USD	USD	Days	Days
Dry bulk	9,966	9,556	1,367	1,353

At operating level, dry bulk segment reported a profit of RM0.379 million in Q1 FY2019, compared to a loss of RM5.766 million in Q1 FY2018 mainly due to lower docking cost (RM2.044 million) and lower operating costs for 5 chartered-in vessels (RM2.587 million).

On 1 January 2019, the Group adopted MFRS 16 Leases and accordingly reclassified the leases of 5 chartered in vessels from operating lease to finance lease. The combined depreciation on right-of-use assets and interest expense on lease liabilities for these vessels in Q1 FY2019 was lower than the charter hire expense previously recognized in Q1 FY2018.

Including impairments (relating to the Group and JVs) and onerous contracts, the dry bulk segment's loss increased to RM10.782 million in Q1 FY2019, compared to RM5.057 million loss in Q1 FY2018 mainly due to an impairment loss of RM12.250 million on assets held for sale in Q1 FY2019.

(2) Investment holding and others

Investment holding and others segment reported a loss of RM0.055 million in Q1 FY2019, compared to a loss of RM9.091 million in Q1 FY2018 mainly due to the non-recurrence of Q1 FY2018's loss from associate (RM6.073 million) and higher interest income (RM1.185 million).

In summary, the Group reported an attributable loss of RM10.762 million in Q1 FY2019, a decrease of RM3.581 million compared to RM14.343 million loss in Q1 FY2018.

The Group reported an operating profit of RM6.649 million in Q1 FY2019, an increase of RM1.020 million compared to RM5.629 million in Q4 FY2018 mainly due to lower operating costs for 5 chartered in vessels as discussed in Note B1 above.

The utilization of onerous contracts provision in Q1 FY2019 was in respect of a lease with remaining period of less than 12 months and hence remains to be recognized as operating lease, whereas the utilization in Q4 FY2018 was in respect of the leases for all 6 chartered in vessels (including 5 leases which had been reclassified as finance lease on 1 January 2019). The onerous contracts provision for these 5 vessels is now reclassified as impairment provision.

In Q1FY2019, the Group recognized an impairment loss of RM12.250 million on assets held for sale.

Other operating income increased by RM2.916 million mainly due to higher interest income and foreign exchange gain, and non-recurrence of provision for expected credit losses on trade receivables in Q1 FY2018.

Administrative expenses decreased by RM0.253 million mainly due to lower personnel cost.

Interest expense on bank borrowings increased marginally by RM0.027 million due to higher interest rates. Interest expense on lease liabilities was RM2.388 million in Q1 FY2019 (Q1 FY2018: nil).

Share of joint ventures' results increased by RM0.280 million to a profit of RM0.779 million in Q1 FY2019 (Q4 FY2018: RM0.499 million) mainly due to lower vessel operating cost for the JV vessel.

The Group recorded a net attributable loss of RM10.762 million in Q1 FY2019, compared to an attributable profit of RM406.436 million in Q4 FY2018 mainly due to the non-recurrence of reversal of impairment loss on associate (RM140.325 million) and gain on disposal of associate (RM265.929 million) recorded in Q4 FY2018.

B3. PROSPECTS

The freight market started on a weak note in 2019 due to the impact of the Vale dam incident and swine flu in China. The ongoing US-China trade war and the disruption to trade flows have further negative effect on freight rates across all dry bulk segments. However, new building deliveries have remained low and vessel scrapping is expected to pick up. The world operating fleet is expected to reduce as some vessels are taken off for retrofitting of scrubbers and ballast water treatment systems. Freight rates are expected to improve in 2H 2019.

The shipping income of the Group that is derived from the operations of sea-going Malaysian registered ships and Singapore registered ships is tax exempt under Section 54A of the Malaysian Income Tax Act, 1967 and Section 13A of the Singapore Income Tax Act respectively. The income tax expense for the Group is attributable to tax in respect of non-tax exempt activities of the Group.

B6. FINANCIAL INSTRUMENT

a) Derivatives

The Group uses cross currency swap and interest rate swap to manage the variability of future cash flows attributable to exchange rate and interest rate fluctuation on its borrowings. The hedged cash flows are expected to occur and affect profit or loss in the next 1 year. Gains and losses arising from the effective portion of the hedges are deferred in equity until the variability on the cash flow affects profit or loss, at which time the gains or losses are transferred to profit or loss.

There is no change to the type of derivative financial contracts entered into, cash requirements of the derivatives, risk associated with the derivatives and the risk management objectives and policies to mitigate these risks since the financial year ended 31 December 2018.

As at 31 March 2019, the notional amount, fair value and maturity tenor of the derivatives are as follows:

	Notional amount RM'000	Fair value assets /(liabilities) RM'000
Cross currency swap - less than 1 year	128,000	(36,352)
Interest rate swap - 1 year to 3 years	40,763	(732)
- More than 3 years	20,382	(602)
	<u>61,145</u>	<u>(1,334)</u>

b) Fair value changes of financial liabilities

The Group does not have any financial liabilities which are measured at fair value through profit or loss except for derivative financial instruments.
