B1. REVIEW OF PERFORMANCE

The Group reported a profit before tax (PBT) of RM31.3 million in the first 9 months of 2013, a decline of 36% compared to RM49.1 million registered in the same period last year.

The table below summarizes the average time charter equivalent (TCE) for MBC's dry bulk and tanker fleet.

	Average TCE/day		Hire days	
	9 months ended Sep-13	9 months ended Sep-12	9 months ended Sep-13	9 months ended Sep-12
	USD	USD	Days	Days
Dry bulk	8,968	10,115	3,031	3,101
Tanker	12,387	10,571	786	803
Total fleet	9,672	10,209	3,817	3,904

The performance of the respective segments in the first 9 months of 2013 as compared to the same period last year is analysed as follows:-

Dry bulk segment

Dry bulk segment reported a loss before tax of RM19.3 million in the first 9 months of 2013, a decline of RM29.3 million compared to a profit of RM10.1 million recorded in the corresponding period a year ago. Lower charter rates earned (-11%), higher docking cost (4 vessels docked this period compared to 1 vessel last year) and lesser hire days all contributed to the decline in dry bulk's results.

Tanker segment

Tanker segment reported a smaller loss of RM0.3 million in the 9 months ended September 2013, compared to the RM1.9 million loss registered in the same period last year. Average tanker charter rates of USD12,387/day, was about 17% up year on year. The improvement was partly offset by higher docking cost.

Ship brokerage and management

Profit from this segment increased marginally by RM0.6 million due to higher management fees earned.

Investment holding and others

Contribution from our associate (the POSH Group) more than doubled to RM45.5 million, from last year's RM21.5 million due to the improved offshore service sector. This more than offset the lower contribution from other investments.

Overall, profit attributable to shareholders declined 37% to RM30.7 million in the 9 months ended September 2013, from RM48.9 million registered in the same period last year.

B2. COMPARISON WITH PRECEDING QUARTER'S RESULTS

Non-controlling interests	(428)	44	(472)
	8,114	13,144	(5,030)

The Group posted a quarterly operating loss of RM6.3 million in July to September 2013, a decline of RM6.1 million compared to the RM0.2 million loss in the preceding quarter. Charter rates earned increased marginally quarter on quarter but the improvement was eroded by the higher docking cost as 3 vessels were docked in the July to September quarter.

Other operating income increased RM3.5 million due to foreign exchange gain. Administrative expenses and finance costs remained stable quarter on quarter.

Our associate (POSH) reported another strong quarter, contributing RM13.9 million to the Group's bottom line.

All in, profit attributable to shareholders declined 35% quarter on quarter to RM8.5 million in the third quarter of 2013, from RM13.1 million reported in the second quarter 2013.

B3. PROSPECTS

In its October 2013 World Economic Outlook, the International Monetary Fund cut its global growth forecast for 2013 by 0.3% from its July's estimate, citing the weakness in emerging economies for the latest revision to 2.9%. Notwithstanding that, the emerging market economies continue to account for the bulk of global growth.

Although the supply of bulk carriers is forecasted to slow to 6% in 2013 (down from 10% in 2012 and 15% in 2011), it still outpaces the dry bulk trade which is projected to grow only at 5%. Overall, increased dry bulk imports by China and India are expected to remain the main drivers of global trade growth next year.

The outlook for both dry bulk and tanker remains challenging as supply of newbuildings continues whereas vessel scrapping has slowed down.

The Group has taken delivery of two new vessels (one Supramax and one Handysize) under long term charter this year and has another 6 new vessels in the pipeline for deliveries in the next 3 years.

Our associate PACC Offshore Services Holdings Pte Ltd (POSH) reported strong earnings in the first three quarters of the year. The offshore sector remains active and it should continue to contribute positively to the Group's performance in 2013.

B4. VARIANCE OF PROFIT FORECAST AND PROFIT GUARANTEE
